Hidden cost of owning your car

Your car is covered by the Ford manufacturer warranty for 3 years or 60,000 miles. After this the cost of repair is met by yourself, unless of course you have a Ford Protect Gold Warranty. As the age and mileage of your vehicle increases, the risk of an unexpected mechanical failure also increases, whilst an electrical failure can occur at any time.

Where is your vehicle on the graph below and more importantly, where will it be in 3 years time?
